Automotive Service Councils of California Proudly Announces New Corporate Partnership with Automotive Coaching and Training Group

SACRAMENTO – The Automotive Service Councils of California is proud to announce its most recent corporate partnership with The Automotive Coaching and Training (ACT) Group, a company built on the experiences of 20 plus years in the automotive field. In fact, most of Training Coaches in The ACT Group are specifically automotive trained and have come up through the ranks as technicians, service advisors, managers, general managers, and owners of automotive facilities. It is through their experiences as well as the experiences working in literally hundreds of facilities across the country that they provide useful, current, and relevant skill set to move your business forward.

The ACT Group has professionally coached and trained automotive facility owners, managers and service advisors alike for more than 20 years! It is through this understanding of the automotive industry as well as their dedication to making the industry a better place to work and make a living, that the ACT Group was formed.

“If you’re looking to increase the success of your business and achieve new goals, The ACT Group can help you through their advice and workshops,” said John Eppstein, Chair, ASCCA Revenue and Benefits Committee. “With over 20 years of experience, The ACT Group brings immense knowledge of the automotive industry and is dedicated to delivering the kind of results your shop deserves.”

Many discounts are available to ASCCA members, including but not limited to \$200.00 off The ACT Groups Service Advisors classes (webinar or classroom style), Business development classes, In-Shop and Phone training classes, 20 Group style training, phone call analysis programs as well as many programs being developed as you read this!
