**INDUSTRY TRAININGS:  
HOW TO MAKE THEM COUNT!**

As a leader in your business, you're not only in charge of the day to day needs, but also making sure your team is up to date on the industry standards, regulations, or technological advances. There's plenty of trainings to attend, but *is it even worth it? How much will the team get out of it? Who should you be sending? Will they even get anything out of it?* Many shop leaders go through a list of questions each time a new training is offered, so it's time to talk openly about this.

**AFTER ALL - TIME IS MONEY!**
