## Automotive Service Councils of California Proudly Announces New Corporate Partnership with Dynamic Friction Company

SACRAMENTO – The Automotive Service Councils of California is proud to announce its most recent corporate partnership with Dynamic Friction Company (DFC), whose mission is to deliver quality, innovation, and value in the automotive industry by manufacturing OE quality brake products for all foreign and domestic vehicles.

DFC is the leading manufacturer of award-winning automotive braking systems. DFC maintains a massive inventory of brake parts for all domestic and foreign vehicle applications from 1930-present. Other products in its product line include brake rotors, brake pads, drums, brake shoes, hardware kits, and brake sensors.

“DFC can take your shop to the next level with its comprehensive brake program that has been developed with a lot of dedication and research,” said John Eppstein, Chair, ASCCA Revenue and Benefits Committee. “They bring immense knowledge of not only braking systems, but also the automotive industry and are dedicated to improving this aspect of it.”

DFC also boasts a full complement of dedicated in-house engineers, product managers, catalog managers, and R&D staff who work vigorously to give its customers first-to-market advantage, while addressing the intricacies and complexities of the modern braking system.
